Forecast for Saturday 21 Sep 2024

Weather: Clear spells in the west with occasional low cloud, mist and fog, this extensive at times in the east in the early morning with patchy drizzle. Much of the low cloud, mist and fog should clear during the morning to leave a mainly dry and bright day, best of the sunshine across the western fells.

Chance of cloud-free hill tops above 800m: 50% first thing, rising to 80% during the morning.

Low cloud and visibility: Occasional or patches well down early in the day, particularly in the east, but often clear or sunny. Occasional summit cloud returning to the eastern fells in the evening. Visibility mainly good or very good, but moderate to very poor in any low cloud, mist and fog.

Meteorologist's View

Nothing further to add.

Forecast for Sunday 22 Sep 2024

Weather: Occasional or extensive low cloud across the east overnight and early morning with occasional drizzle, and clear spells with patchy mist and valley fog elsewhere. Any low cloud tending to lift and clear during the morning to leave another mainly dry and bright day with sunny spells.

Maximum wind: East or Northeast 15 to 20mph gusts 30mph.

Chance of cloud-free hill tops above 800m: 40% overnight and early morning rising to 80% during the day.

Low cloud and visibility: Occasional or extensive cloud well down early in the day, particularly in the east, but often clear or sunny. Occasional summit cloud returning to the eastern fells in the evening. Visibility mainly good or very good, but moderate to very poor in any low cloud, mist and fog.

Temperature: **Valleys:** Plus 8 rising to 19 Celsius
At 800m: Plus 8 to 12 Celsius
Freezing level: Above the summits
